

New Feedlot Notification

Date Sept-27-2006

Neighbor,

As you are probably aware, the Mower County Commissioners approved new feedlot rules effective June 1, 1996. One of these rules requires a feedlot operator to notify the landowners within a one mile radius of feedlot expansion.

I/We, Lowell, am/are planning to build a new feedlot in Section 30 of Lyle Township.

This will be a Swine (type) and have a total capacity of 1990 Animal Units.

We will be having an information meeting at 12370 505th AVE Lyle MN on Oct 5-2006 (date) at 3:00 (time). We will explain the proposed project at this meeting.

If you have any questions, please contact me/us at 507-325-4702 or Lowell Franzen, Mower County Feedlot Officer, 1105 1/2 8th Avenue N.E., Austin, Minnesota 55912 (507) 437-9460.

Lowell Franzen
